

**NALMCO**  
THE STANDARD FOR LIGHTING MANAGEMENT QUALITY SINCE 1953

## The interNational Association of Lighting Management Companies®

NALMCO® is committed to raising the professional level of its members and the performance of lighting systems by providing education, certification and networking opportunities for the lighting industry.

NALMCO is the leading organization for the lighting industry. Founded in 1953 as a member driven association to set best practices in contracted lighting maintenance schedules, the NALMCO Association soon became the standard for lighting focused contractors and professionals in the field of relamp and maintenance.

Since that time, and upon the adoption of LED technology, the level of sophistication of the General Membership has grown to meet the unique challenges this disruptive technology has had on the lighting and electrical industry.

The NALMCO membership is now comprised of skilled technicians, Certified Lighting Management Consultants®, Lighting Controls Professionals, Auditors, Distributors, ESCOs, Lighting Installers, and world class Lighting Manufacturers.

NALMCO is passionate about keeping the standard of work, services, and products at the highest of levels. This passion is shared by all who are proud to be a part of this organization. Joining NALMCO makes your company part of the elite in our industry and gains you access to all the valuable benefits our members have enjoyed for decades.

# NALMCO®

THE STANDARD FOR LIGHTING MANAGEMENT QUALITY SINCE 1953

## Who is NALMCO®?

### Associate Members

Associate Members are leaders in lighting technology, electrical products or a related service. These members seek to develop partnerships to specify their company's world class lighting and controls, to install energy efficient LED products, and to be a trusted partner from specification to installation. An Associate is any company offering a product or service to NALMCO's General Membership.

### General Members

General Members are skilled lighting and Electrical Contractors, specifiers, auditors, Lighting Management Companies, ESCOs and any company seeking to develop a trusted vendor partnership with world class lighting and controls suppliers. A General Member may be any company who offers lighting and control audits, specification, installation or maintenance.

### Professional Members

Professional Members may include facility or property managers, energy managers, lighting efficiency professionals, independent auditors, architects, IT professionals or governmental agencies, utilities or property management firms with energy efficiency responsibility. These members seek to find value in networking with potential vendors or service related companies to further their lighting and controls initiatives.

### Mission Statement

NALMCO® is committed to raising the professional level of its members and the performance of lighting systems by providing education, certification and networking opportunities for the lighting industry.
